INDEX OF ABSTRACTS OF TUBERCULOSIS

Abdominal tuberculosis and intestinal stasis, 54
Abscess, lung, Artificial pneumothorax in, 70
——, mediastinal, and spastic paresis, Pott's disease with, 55
——, pulmonary, acute, Treatment of, 8
Abscesses, Intrathoracic dissecting, 8
Acid-fast bacilli, saprophytic, Disappearance of, from blood, 40
—— saprophytes, Attempt to differentiate, from tubercle bacilli by antiformin, 40
—— ——, Differentiation of, from tubercle bacilli by Preiss's method, 41
Acute disseminated lupus erythematosus, 3
—— empyema, Treatment of, 9
—— pulmonary abscess, Treatment of, 8
—— tuberculosis, Pulmonary gangrene in, 94
Adaptation to changes of altitude, Artificial pneumothorax and, 68
Addison's disease, Blood in, 62
Adenoidectomy, Tuberculous meningitis following, 18
Adenopathy, hilar, Gross, in adult tuberculosis, 52
Adhesions in artificial pneumothorax, Obliterative, 72
Administering tuberculin, Advantageous method of, 75
Adrenal, Influence of tuberculin on secretion of, 29
Adult life, reinfection in, Influence of minimal tuberculous infection of young rabbits on, 28
——, Primary pulmonary tuberculosis in, 25
—— tuberculosis, Gross hilar adenopathy in, 52
—— tuberculous meningitis, Case of, 3
Advanced tuberculosis, Rehabilitation of patients with, 88
Advantageous method of administering tuberculin, 75
Afibrinogenaemia and tuberculosis, 11
Africa, equatorial, Tuberculosis in, 11
Air embolism in pleural puncture, 27
Allergic irritability, 31
Allergies, bacterial, Nature of, 32
Allergy in tuberculosis of skin, 58
——, Pulmonary changes of, 32
Altitude, changes of, adaptation to, Artificial pneumothorax and, 68
Altschul, W., and Spitz, A. Ghon's primary focus, 25
Amberson, J. B., Jr. Indications for thoracoplasty in pulmonary tuberculosis, 65
——, ——. ——., ——. Pleural annular shadows, 25
Amebiasis, Pulmonary, and amebic bronchitis, 4
Amebic bronchitis, Pulmonary amebiasis and, 4
—— origin, Pseudotuberculosis of, 4
Amenorrhea of puberty during tuberculosis, 62
Amrein, O. Pneumoperitoneum during operation for artificial pneumothorax, 72
Anatomy, Pathological, of miliary tuberculosis, 25
Anergy, Hepatic, in tuberculosis, 32
Anesthetic for thoracoplasty, Choice of, 67
"Angiolymph," Treatment of pulmonary tuberculosis by, 78
Annual review of German sanatoria, 1922, 87
Annular shadows, Pleural, 25
Antibodies, Tuberculous, in infected infants, 18
——, ——, Transmission of, from mother to child, 18
Antiformin, Attempt to differentiate acid-fast saprophytes from tubercle bacilli by, 40
Antigen, methylic, Treatment of lupus by, 58
——, ——, —— —— tuberculous children by injections of, 23

Antituberculosis campaign in United States, 13
—— measures, 13
—— vaccination of newborn, 89
Apfel, H. Spontaneous pneumothorax in child, 22
Apical bronchiectasis, Diagnosis of, 45
Apices, Tendency of, to chronic tuberculous infection, 24
Apparatus for artificial pneumothorax, New, 66
Arkawin, J. S. Percussion of lungs in children, 45
Arloing, F., and Dufourt, A. Pulmonary changes of allergy, 32
Armand-Delille. Artificial pneumothorax in infants, 18
Armand-Delille, P., Duhamel, G., and Marty, P. Treatment of tuberculous children by injections of methylic antigen, 23
Arnold, A., and Huebschmann, P. Pathological anatomy of miliary tuberculosis, 25
Artificial pneumonokoniosis produced intravenously, 92
Artificial pneumothorax and adaptation to changes of altitude, 68
—— —— —— variation of atmospheric pressure, 68
—— ——, compression curve in, Registration of, 67
—— ——, gas in, Choice of, 68
—— —— in infants, 18
—— —— —— lung abscess, 70
—— ——, Influence of, on symptoms, 72
—— ——, Mean intrathoracic pressure during, 67
—— ——, New apparatus for, 66
—— ——, —— technique for, 66
—— ——, Obliterative adhesions in, 72
—— ——, Partial simultaneous bilateral, 69
—— ——, Permanent results of, 70
—— ——, Pleurisies of, 70
—— ——, pleurisy in, Dry, 72
—— ——, Pneumoperitoneum during operation for, 72
—— ——, Recompression of tuberculous lung by, 70
Artifical pneumothorax treatment, Eosinophiles during tuberculin and, 73
—— ——, True and false images of cavity in, 72
—— ——, Tuberculosis with cavity in child treated by, 22
des Arts, R. Skin reaction in tuberculous meningitis and generalized miliary tuberculosis, 62
Atmospheric pressure, variation of, Artificial pneumothorax and, 68
Atony of stomach in tuberculosis of lung hilum, 53
Attempt to differentiate acid-fast saprophytes from tubercle bacilli by antiformin, 40
Auclair, J. Cause of immunity of fowls to human tuberculosis, 23
Autolyzed tubercle bacilli, 39
Auto-urine test, Wildbolz, 50
Avellan, J. A. New technique for artificial pneumothorax, 66

Bacillemia, Experimental tubercle-bacillus, in guinea pig, 41
Bacilli, acid-fast, saprophytic, Disappearance of, from blood, 40
Bacilli, tubercle, Attempt to differentiate acid-fast saprophytes from, by antiformin, 40
——, ——, Autolyzed, 39
——, ——, Bacteriolysis of, in vivo, 38
——, ——, Characteristics of, 34
——, ——, dead, Protective inoculation with, 88
——, ——, defatted, Properties of, 39
——, ——, Differentiation of acid-fast saprophytes from, by Preiss's method, 41
——, ——, in liquid media, Growth of, 38
——, ——, —— lungs, Migration of, 39
——, ——, —— urine, 49
——, ——, Konrich's stain for, 49
——, ——, Staining, in sputum, 49
——, ——, Types of, 37
Bacillus, tubercle, Metabolism of, 35
——, ——, Respiration of, 36
Bacmeister. Sanocrysin, 83
Bacterial allergies, Nature of, 32
Bacteriolysis of tubercle bacilli in vivo, 38

Bacteriotherapy of surgical tuberculosis, Specific, 54
Bagliano, M., Sergent, E., and Binet, L. Blood calcium in tuberculosis, 29
Baillet. New apparatus for artificial pneumothorax, 66
Baron and Bernard, L. Pleurisies of artificial pneumothorax, 70

Calcification of ribs in relation to pulmonary tuberculosis, 26
Calcium, Blood, in tuberculosis, 29
——, Blood-serum, in tuberculosis, 30
—— exchange in tuberculosis, 29
Calmette, A. Antituberculosis vaccination of newborn, 89
Campaign, Antituberculosis, in United States, 13
Cancer of lung, Coexisting syphilis and, 94
Carcinoma of bronchus, Effects of, 93
—— —— lung, Primary, 92
Care of tuberculosis in Lancashire, 12
Cartilaginous bronchi, elastic tissue of, Histopathology of, 26
Cassoute and Poinso. Meningeal and cerebellar tuberculosis with syndrome of cerebral tumor, 3
Cause of immunity of fowls to human tuberlosis, 23
Caussade, G., Tardieu, A., and Grigant, A. Comparative effects of ethyl morrhuate and sodium morrhuate, 84
Cavitation in child, Tuberculosis with, 21
Cavities, pulmonary, in children, Differential diagnosis of, 21
——, tuberculous, Experimental production of, 24
Cavity in child treated by artificial pneumothorax, Tuberculosis with, 22
——, Phrenicotomy in pulmonary tuberculosis with, 65
——, True and false images of, in artificial pneumothorax, 72
Cerebellar tuberculosis, Meningeal and, with syndrome of cerebral tumor, 3
Cerebral tumor, Meningeal and cerebellar tuberculosis with syndrome of, 3
Changes of allergy, Pulmonary, 32
—— —— altitude, adaptation to, Artificial pneumothorax and, 68
Chaoul, H., and Lange, K. Intrathoracic dissecting abscesses, 8
Characteristics of tubercle bacilli, 34
Chassard, Sédallian and Mouriquand. Roentgenographic diagnosis of miliary tuberculosis in infants, 17
Chemotherapy of tuberculosis, Experimental, 78
Child, cavitation in, Tuberculosis with, 21
——, Spontaneous pneumothorax in, 22
——, Transmission of tuberculous antibodies from mother to, 18
——, Tuberculosis with cavity in, treated by artificial pneumothorax, 22
Children, cutaneous tuberculin tests of, Lymphangitis after, 22
—— of tuberculous parents, Reaction of, toward tuberculous infection, 22
——, Percussion of lungs in, 45
——, Petruschky's percutaneous tuberculin treatment for, 23
——, pulmonary cavities in, Differential diagnosis of, 21
——, —— tuberculosis in, 18
——, Red-cell sedimentation test in, 51
——, tuberculosis in, Prophylaxis of, 23

Children, tuberculosis in, Treatment of, with Petruschky's liniment, 23
——, tuberculous, Chronic pulmonary infiltration in, disappearing after several months, 19
——, —— infection in, 21
——, ——, Physical development of, 21
——, ——, Prophylaxis of measles in, 89
——, ——, Treatment of, by injections of methylic antigen, 23
——, Wassermann tuberculosis reaction in, 21
Chilean-Bolivian highlands, Climate of, for tuberculosis, 88
Choice of anesthetic for thoracoplasty, 67
—— —— gas in artificial pneumothorax, 68
Cholesterinous pleurisy, 10
Chronic nephritis, Renal tuberculosis and, 61
—— pulmonary infiltration in tuberculous children disappearing after several months, 19
—— stasis in lung and collateral blood vessels, 26
—— tuberculous infection, Tendency of apices to, 24
Claus, F. Critical review of thoracoplasty, 63
Climate of Chilean-Bolivian highlands for tuberculosis, 88
